GOPAL KATESHYA
RAJKOT, JANUARY 12

ROBBERS HIJACKED A van on Friday morning soon after it was loaded with Rs 2.13 crore in cash from a branch of the State Bank of India (SBI) at Gandhidham town in Kutch but abandoned the vehicle on National Highway 41 after a hot pursuit by police personnel and private cash-handling agency staffers, to whom the van belonged.

The incident took place around 11 am at Swami Vivekanand Circle, which is also known as Banking Circle due to the large number of banks there. The police said that after loading the cash in the van, the staff of the private agency decided to have breakfast near the bank itself.

"While the agency staffers were having breakfast, a man ap-

Kachchhi Kharek is now state's 2nd fruit to get GI tag

GOPAL KATESHYA
RAJKOT, JANUARY 12

KACHCHHI KHAREK, the indigenous variety of dates of Kutch, has become the second fruit of Gujarat to get a geographical indication (GI) tag from the Controller General of Patents, Designs and Trade Marks (CGPTD) of India. Jubilant farmers of the semi-arid district have hailed the decision.

The office of the CGPTD awarded a certificate of GI to Kachchhi Kharek or Kutchi dates earlier this month on January 24 after granting an application filed by the United Farmers Producer Company Limited (UFPCL), a farmer producer organisation of Kutch.

The application was initiated in June 2021 by Sardarkrushinagar Dantiwada Agriculture University (SDAU)

through CM Muralidharan, the then-research scientist at SDAU's Date Palm Research Station in Mundra, Kutch. Later, however, the SDAU became a facilitator and made the UFPCL the applicant.

"This is great news for date palm growers of Kutch as a GI tag for their kharek will give their produce a unique identity. That, in turn, will open new avenues of marketing and processing of these tasty fruits," Muralidharan, who is now director of research and dean of postgraduate studies at SDAU, told *The Indian Express*.

With this, fresh dates of Kutch become the second fruit from Gujarat to get a GI tag. In 2011, GJ kesar mango - grown in present-day Junagadh, Gir Somnath and Amreli districts of Saurashtra - was given the GI tag. The same year, Bhalia wheat grown in Bhal region abutting central Gujarat and Saurashtra regions of Gujarat

was also awarded the tag. "The presence of dates in Kachchhi (Kutch) is believed to be around 400-500 years old. It is believed that date palm grows along the north-western border of India have developed from the seeds thrown by the settlers, who used to visit Middle-East countries for Haj and also for trade from where they brought a lot of plant material. It is also probable that the Arab traders working in the palaces of the former rulers of Kachchhi might also have contributed to the import of the date seeds and offshoots from Arab countries," GJ Journal published by CGPTD in August last year recorded while quoting from UFPCL application. Muralidharan said that there are around two million date palms in Kutch today and around 17 million of them are seedling-origin palms of desi (indigenous) varieties. "Because they

are seedling propagated palms, each of them is a unique palm in itself, representing a vast range of diversity in characteristics. Dates borne by these palms have diverse colours, size, shape, and taste, making the fruits grown in Kutch unique and hence eligible for a GI tag," the Dean said.

Dates grown in Kutch are harvested at the khalal stage, the stage when fruits have matured, accumulated sucrose, and have turned red or yellow but are still crisp. In other countries, they are allowed to ripen further till they become soft and dark brown or black in colour.

"Probably, Kachchhi is the only place around the globe where fresh dates are economically cultivated, marketed, and consumed. The area is accounting for more than 85% of total dates palm cultivation in India," the GJ Journal further notes.

and February flower in January. Dates and kharek or fresh dates are harvested in June-July in Kutch where the southwest monsoon reaches later than other parts of Gujarat. "These dates in Kutch have to be harvested at khalal stage as they can't withstand hot weather," Muralidharan said. According to the Gujarat government, 19,251 ha (hectares) in Kutch is under date palm cultivation, which is 94 per cent of the state's total date palm cultivation area of 20,446 ha.

Hailing the development, Vikramsinh Jadeja, General Secretary of Kutch Date Palm Growers Association (KDPGA), an organisation of farmers in Kutch, said, "We will be able to branding our fresh dates on the lines of GJ Kesar mango. The GI tag will increase consumer confidence in our fruits and that in turn will help farmers realise better prices."

Lion dies after being hit by goods train, lioness injured in car collision at Amreli

GOPAL KATESHYA
RAJKOT, JANUARY 12

AN ASIATIC lion was killed after getting hit by a goods train in Amrutvel village in Gir (East) Wildlife Division of Amreli district in the early hours of Friday. This is the second such death on a railway track in Gir (East) this month and the sixth such incident over the last year.

The accident in Gir (East) was reported around six hours after a lioness was seriously injured after being hit by a car on National Highway-351 near Bagasara town of Amreli social forestry division.

The train accident took place on the Pipavay-Surenhrangar railway line near Amrutvel village. Aradhna Sahu, Chief Conservator of Forests (CCF), Junagadh Circle said, "The lion was injured after being hit by the goods train. Our staff has been tracking him since. The animal died at 7:45 am in a cotton field near the railway line," Sahu told *The Indian Express*. Officers said the lion killed in Amrutvel was around three to four years old.

On a lioness being injured in Munjisar Mota village near Bagasara town, Munaf Shaikh, Assistant Conservator of Forests (ACF) of Amreli social forestry division, told *The Indian Express*, "Some saints of the Swaminarayan sect from Junagadh are on their way to Junagadh in a car when a blue bull (nilgai) crossed the highway all of a sudden. While the blue bull managed to cross the highway, a sub-adult lioness that was chasing the blue bull was hit by the car despite the driver applying brakes."

The Junagadh CCF said that the lioness hit by the car sustained fracture in legs. "The lioness suffered fractures in her three legs after being hit by the car. She was operated upon overnight at the Lion Hospital and is currently under observation," Sahu further said.
